- Collaborative development

EDUCATION

**Tashkent University of
Information Technologies**
2020-2024 Bachelor
Najot ta'lim
2023 .NET bootcamp

LANGUAGE

English B1

PROFILE

Tech professional with hands-on experience in both front-end and back-end development. Adept at designing user interfaces, building server-side applications, and ensuring database integrity. Committed to delivering quality software solutions through collaborative teamwork and continuous learning of new technologies.

WORK EXPERIENCE

.NET Developer

Anjir team

December 2023 - Current

- Contributed to back-end experience and collaborated on APIs.
- Designed and maintained SQL databases, including complex queries, stored procedures, and triggers for data-driven web applications.
- Handled special projects designated by senior developer.

PROJECTS

- CarAccounting.** This project is designed to help users manage and track their vehicle-related expenses. It enables users to monitor fuel consumption, service costs, and other expenditures associated with their vehicles.
Frontend: Developed using Angular (TypeScript, HTML, LESS) for a responsive and user-friendly interface.
Backend: Built with ASP.NET Core to handle server-side logic and API management.
www.abdisamadovich.uz
- WebTotalCommander.** This project is an online file management tool that replicates the functionalities of traditional file managers in a browser environment. Designed for ease of use, it allows users to manage their files and directories seamlessly through a web interface..
Frontend: Developed using Angular (TypeScript, HTML, CSS) for a responsive and user-friendly interface.
Backend: Built with ASP.NET Core to handle server-side logic and API management.
- Portfolio.** This project is a personal portfolio website built to showcase skills, projects, and experience in a professional and engaging way. The website is designed to be fully responsive and accessible in multiple languages, allowing a broader audience to explore the portfolio.
